

LEADERS IN LIGHT THERAPY EDUCATION

PTI fosters a community of individuals with the goal of supporting vibrant health for ALL species through targeted Light Therapy.

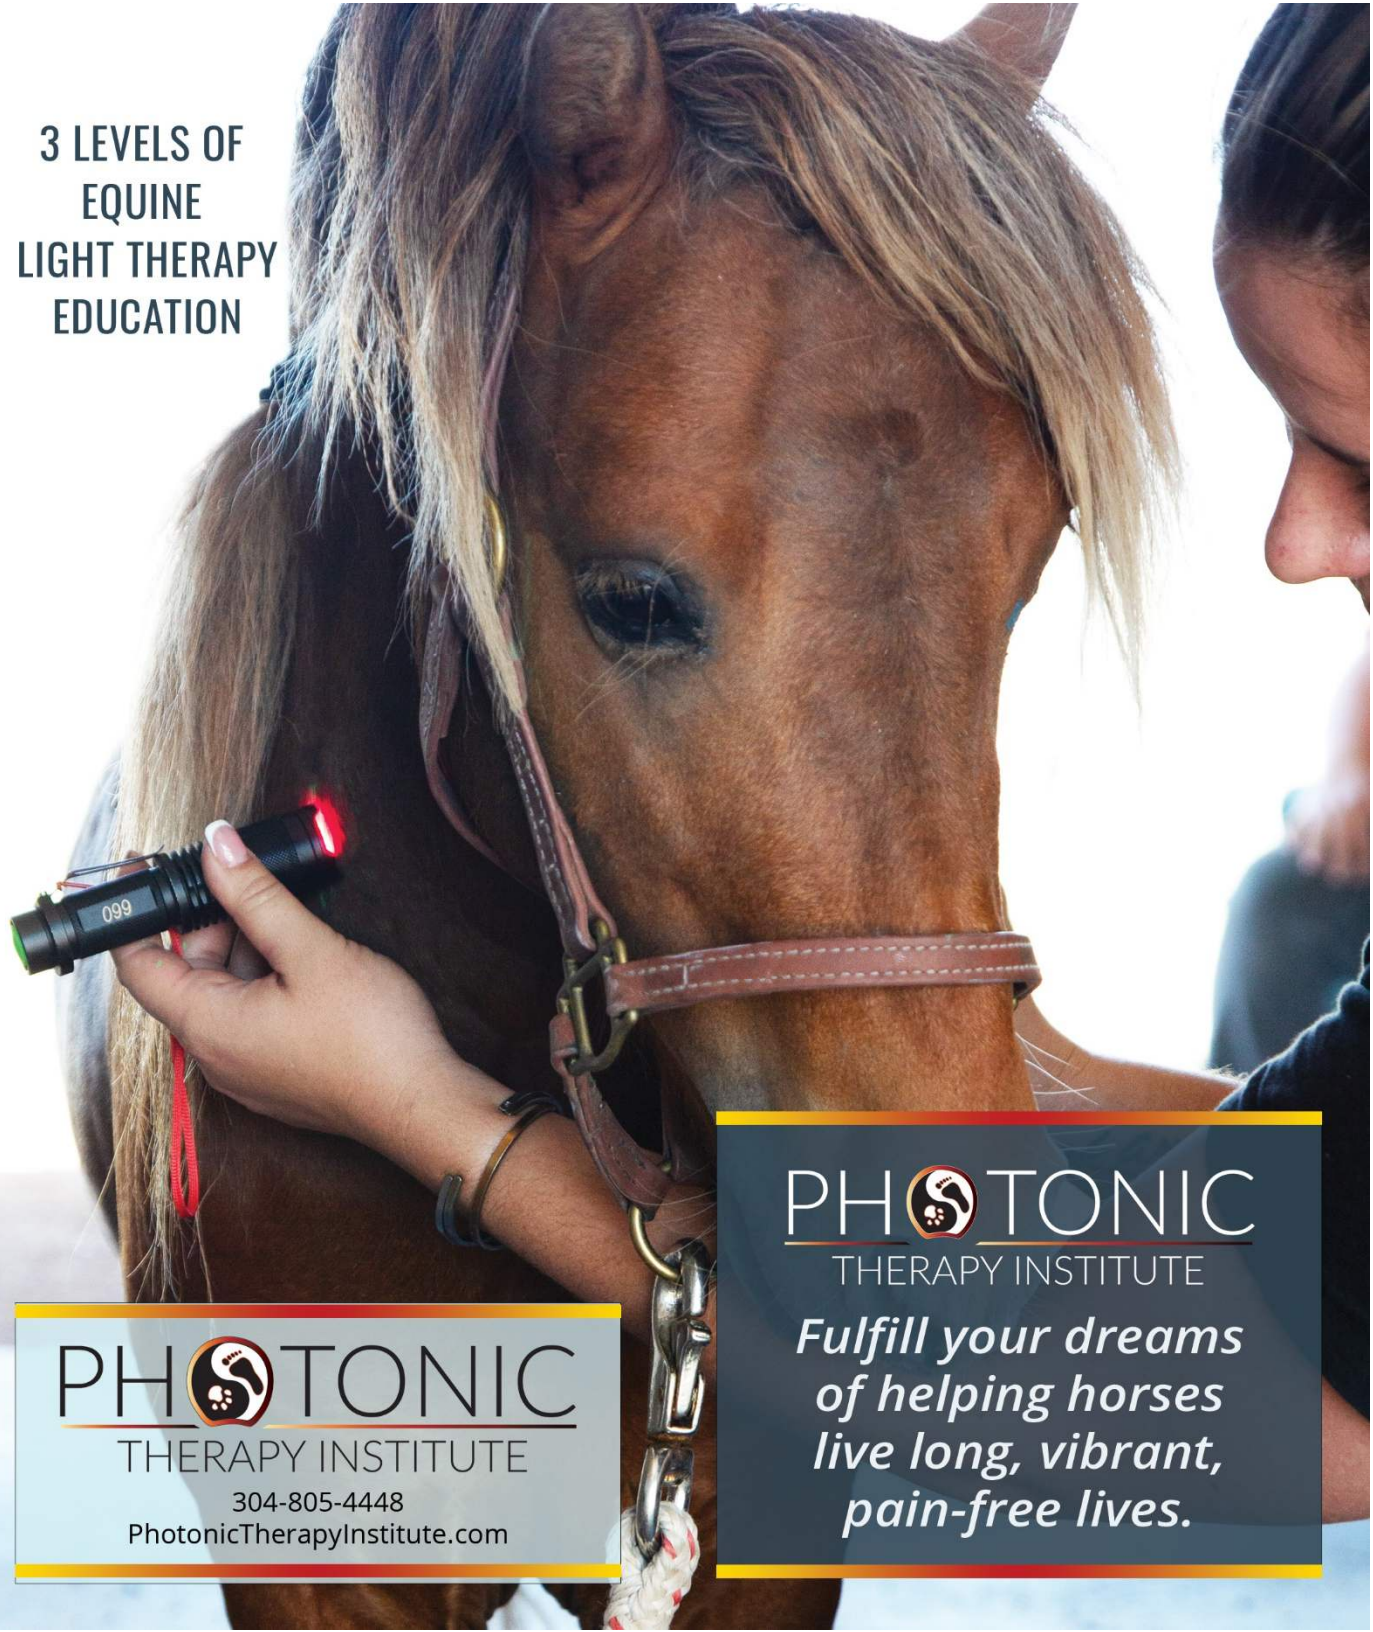

All of our programs are self-paced online courses supported by live weekly webinars and monthly drop-in review sessions. Advanced, hands-on clinics are held quarterly for additional refinement and one-on-one assistance.

At PTI, our goal is to teach and empower those who want to also share the benefits of using Targeted Light to help ALL species.

3 LEVELS OF EQUINE LIGHT THERAPY EDUCATION
