ABSORBABLE LIGHT GIVES EACH CELL THE ENERGY IT NEEDS TO DO ITS OWN JOB BETTER!

When you provide the right Light to your body, this stimulates a healing process known as **Photobiomodulation.**

This is the type of Light that ignites and energizes the body's cells ... the kind of Light that returns the body to vibrant health.

The more you target your Light, the faster your brain processes where the issue is and makes fast, systemic changes.

When you activate acupuncture points with Light, it opens a whole new realm of care that we call **Photopuncture.**

Why both Torches & Pads?

PTI Photopuncture Torches are perfect for their high-output targeted therapy & for balancing the energy meridians that run through the body. By adding a Fiber-Optic Probe, you can target Light into tight areas such as the mouth & ears.

InLight Therapy Pad Systems deliver low, slow, non-heating Light directly to the right areas, in the right order to deliver optimal healing benefits.

Why Specialty Lights?

With adapted designs, these custom tools support reproductive health & pain relief for both women and men.

InLight Therapy Systems

Professional grade, pulsed, polychromatic pads. FDA cleared for lowering pain, increasing circulation and stimulating the production of new cells.

With decades of proven results, InLight Systems are **powerful enough** for clinical results, **simple enough** for home use, & **durable enough** for years of consistent use.
