

The 2/Port | Inlight Cap System Package

The 2/Port | Inlight Cap System package comes with the travel-friendly 2/Port Controller and the Inlight Cap. This system offers an easy option for individuals seeking the therapeutic benefits of photobiomodulation (PBM) therapy. The Inlight Cap 525 Red/NIR pad designed for head coverage, provides simplified placement. Powered by **Progressive Multi-Pulse™** technology, it delivers photon energy for pain relief, improved circulation, tissue regeneration, and overall wellness. A carry bag ensures portability, making it ideal for pro-level and travel-friendly applications.

This package includes everything needed to begin sessions and includes a two-year warranty.

Improved
Lymphatic Flow

Reduces Pain
Acute & Chronic

Therapeutic Effects of PBM: This nonthermal process yields therapeutic benefits, including pain relief, improved circulation, inflammation reduction, modulation of the immune response, and facilitation of wound healing and tissue regeneration.

- The 2/Port controller supports up to two interchangeable Inlight LED pads. The Inlight Cap requires both output ports.
- Choose your preferred setting to experience Inlight's proprietary **Progressive Multi-Pulse™** technology, featuring one easy-to-use automatic pre-programmed setting and seven manual settings.
- The Inlight Cap's **525** diodes, featuring **236** Red diodes (630 nm) and **289** NIR diodes (850 nm) promote PBM by combining red and near-infrared (NIR) photon energy over non-ionizing wavelengths.
