

HELPING OTHERS LIVE THEIR BEST LIVES

Inlight Therapy uses red, near-infrared, blue, and green light energy to support your body's natural healing processes. This gentle, non-thermal LED technology helps relieve pain, reduce inflammation, improve circulation, speed recovery, and much more—through the science of photobiomodulation.

Inlight Therapy products are legally marketed as a Class II Medical Device under FDA indications for use to temporarily relieve minor pain, stiffness, and muscle spasms; and to temporarily increase local blood circulation. The light emitted from Inlight Therapy devices is within the visible to infrared spectrum and consists of non-ionizing radiation, which is safe for use. Clients choose Inlight Therapy PLT for its convenience, value, drug-free, and non-invasive healing properties.
